

## Eco-Warriors

Wednesday, 27 February 2008

ECO-WARRIORS. A small team of Joes dedicated to stopping "environmental offenders". Originally comprised of only two members -- Clean Sweep and Ozone -- the team added Flint as their commander on a mission to stop the former Cobra agent named Cesspool. The team used special equipment to detect and contain toxic chemicals and other environmental threats, along with G.I. Joe battle copters and brightly-colored protective uniforms made from recycled action figures. Flint led an attack on Cesspool's converted oil platform, where he was intent on polluting the ocean. In the end, the Eco-Warriors defeated Cesspool with the weapon that proves most deadly to those who threaten the environment: a lawyer.
