A.G.P. The Anti-Gravity Pods are small, low-flying aircraft designed by Destro's Military Armament Research Syndicate and used by his personal army, the Iron Grenadiers. The A.G.P. was armed with two missiles and a 106mm recoilless cannon. The vehicle's primary pilots were the Nullifiers. Destro used A.G.P.s in his invasion of Cobra Island during the Cobra Civil War. He also defended his castle in Scotland with A.G.P.s when Cobra launched an invasion of his family's land. A new version of the AGP was used to kidnap Scarlett and Snake-Eyes during the Joes' attack on the Dreadnok compound in Florida.
