C.L.A.W. A one-man rocket-powered hang glider used by Cobra. The CLAW could also be used as a unmanned drone. The small vehicle carried two Venom missiles and a single Flashfire bomb. The name stands for "Covert Light Aerial Weapon". The Joes first encountered the CLAW when Storm Shadow kidnapped Scarlett while working for Cobra. Storm Shadow later used a CLAW to rescue Cobra Commander from G.I. Joe custody and then let the Commander use it to escape. Cobra agent Tomax used a CLAW to escape from the Joe team at Cobra's illegal oil drilling operation in the Antarctic.
